WiFi. How publicroam works

Sign in once and automatically go online anywhere

There are two ways to sign in:

Download the free **publicroam app**

This is the easiest way. Your mobile phone or tablet automatically connects to WiFi. After that you can connect other devices.

Or sign in **without the app**

Get your free account at publicroam.nl. You will receive your login detail by SMS.

Connect your devices to WiFi:

- Select your WiFi network: **publicroam**
- Enter your **username** (this is 'identity')
- Enter your **password**

(Get your login details from the SMS or publicroam app)

Additional settings Android or Chromebook

EAP-Method:	<i>PEAP</i>
Verification phase-2:	<i>MSCHAPv2</i>
CA-certificate:	<i>do not validate/standard</i>
Domain (if asked):	<i>publicroam.nl</i>
Anonymous identity:	<i>leave empte</i>

Check if the certificate belongs to publicroam and accept it.

**From now on you'll go online wherever publicroam is available.
Free, secure and easy.**
